Read about Lisa’s poll and answer the questions.

Lisa’s poll questions:
*Do you drink coffee? Do you think coffee drinking is healthy or unhealthy? Why or Why not?*

*Yesterday, I asked my class about their coffee–drinking habits. I was surprised that so many of my classmates drink coffee. 89% said they drink coffee every day. Most of them think coffee drinking is neither healthy nor unhealthy, but a few of them think drinking coffee is unhealthy because it can damage heartburn. One of my classmates said, “I couldn’t live without coffee.” Another said, “I don’t think people should drink coffee because it is bad for the heart. In my opinion, drinking coffee is okay, but you shouldn’t drink too much.*

Most of Lisa’s classmates ___.

_____________________________________________________

A few of her classmates ____________________________________________

Some interesting responses from her classmates:

*One classmate said* ________________________________________________

*Another classmate said* ________________________________________________

Lisa was surprised that _____________________________________________

Lisa’s opinion: ________________________________________________________
Now write about your poll
My health poll questions:

(over)
Most of my classmates

A few of my classmates

Some interesting responses from my classmates:
I was surprised that

My opinion:

Now write a paragraph about your poll. Then add a graph to describe your poll.

What brings you here today?

How long have you had this problem?

Do you have it all the time, or does it come and go?

Do you have any other symptoms?

Are you taking any medication?

What have you done for it so far?

(Doctor tells next step) (Let’s take a look, I’d like to get some blood work)

What brings you here today?

How long have you had this problem?

Do you have it all the time, or does it come and go?

Do you have any other symptoms?

Are you taking any medication?

What have you done for it so far?

(Doctor tells next step) (Let’s take a look, I’d like to get some blood work)
Imagine you are talking to the doctor. Write down your problem (imaginary). Write your answers to the doctor’s questions.

Health Problem: _______________________________

1. What brings you here today?

2. How long have you had this problem?

3. Do you have it all the time, or does it come and go?
